

ECaTS Text to 911

Capture and Report on Text-to-911 and SMS Sessions.

Texting 911 is essential during a home intrusion, kidnapping, suicide attempt, domestic violence or for the hearing and speaking impaired.

ECaTS offers the ability to report on all types of Text to 911 calls for service.

No Equipment Required

ECaTS collects directly at the TCC and delivers reporting via a web browser. All you need is access to the internet through a web browser to access all SMS analytics. User log-ins are governed by permissions and there is no limit on how many log-ins are available.

No matter how your text gets to a PSAP, ECaTS can help you improve your service to the community by accurately reporting on Text to 911 transactions.

ECaTS offers a high level of customer support with the purchase of the Text to 911 suite. You will have a dedicated service concierge to call or email as needed.
